Criteria	Ratings			Pts
	clearly identifies whether the featured student meets the criteria under this diagnostic instrument (including the severity level). All factors of the DSM-5 criteria are addressed and aligned with specific examples of behaviors that fit each criterion. (If the child's characteristics do not meet certain criteria, specify that.)	provides limited and/or partial evidence of the following: identifies whether the featured student meets the criteria under this diagnostic instrument (including the severity level). All factors of the DSM-5 criteria are addressed and aligned with specific examples of behaviors that fit each criterion. (If the child's characteristics do not meet certain criteria, specify that.)	provides VERY limited and/or missing evidence of the following: identifies whether the featured student meets the criteria under this diagnostic instrument (including the severity level). All factors of the DSM-5 criteria are addressed and aligned with specific examples of behaviors that fit each criterion. (If the child's characteristics do not meet certain criteria, specify that.)	
	25 pts Full credit -Your submitted assignment clearly identifies	14 pts Partial credit- Your submitted assignment provides limited	0 pts No credit-Your submitted assignment provides VERY	

Michael, a suggestion I have is that you try to stick to the assignment as written and defined by the instructions and the rubric. I appreciate that you are passionate about the topic and delve into much detail, however, sometimes I think it clouds and overtakes the intent of the assignment. Well done.
